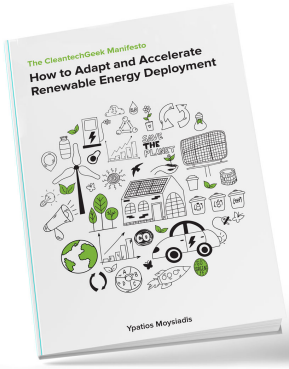
Ypatios Moysiadis

“The knowledge and the technology to transform our lives towards Carbon Zero sustainable living is here now. Let’s embrace those impactful entrepreneurs pioneers that actively disrupt the way we live...”

Active blogger: CleantechGeek.com

Producer of the “Inside Cleantech” Youtube Series

Author of the up and coming book “The CleantechGeek Manifesto: How to Adapt and Accelerate Renewable Energy Deployment”



Bio

Starting as a management consultant, he specialised in assisting pre-seed and growth phase start-ups and SMEs across different organisations. He capitalised on the legislative introduction of renewable energy incentives and expanded his scope into the development, construction and operation of renewable energy assets. This experience lead to work with major organisation like the European Commission, Regional Authorities in many European Cities and posts at leading International and British companies like, Galliford Try Group, Grupotec, Foresight Group and BayWa r.e. across several EU countries.

Today, Ypatios focuses on sustainability and innovation, mostly in the Greentech and Cleantech spaces. He is a visiting lecturer at Cass Business School and ESPC Business School, active writer and speaker in leading publications and conferences. He passion lays in the intersection of innovation and sustainability, he coaches start-ups and invests in Cleantech / Entech companies himself.

Speaking Topics

1. **Renewable Energy | A Cleantech Geek’s Manifesto:**

   How all of us from people to large companies can adapt and invest in Renewable energy? How to capture and use data to support our decisions and make ethical profit from clean energy and energy efficiency.

Client Testimonials

Steve Williams
CEO Clean Solar Solutions

"Ypatios Moysiadis has provided me with unwavering support as my mentor over the last 12 months. Come hell or high water, he has proved to be a strength and inspiration to me".

Costas Andriopoulos

Ypatios is an active mentor & coach of MSC student-led start-ups, at Cass Business School for the past 4 years. He is an exceptional role-model, very insightful. He uses practical tools to enhance the deliverables and business results. Not to mention, his mentoring sessions are over-subscribed every year".

Guidelines

Ideator and coordinator of the compilation of Solar Power Europe "Best Practice Guidelines for Solar PV Asset Management"
